

Decision Making, Stakeholders & Partnerships Panel

Panelists:

Tim Brown: Program for Climate, Ecosystems and Fire Applications, DRI

Holly Hartmann: CLIMAS and SAHRA NSF Science & Technology Center

Chuck Hutchinson: Office of Arid Lands Studies, University of Arizona

Doug Kluck: National Weather Service, Central Region Climate Program

Panel Goals

1. How can the CPAS *community* move forward to effectively make climate science more useful and usable to decision-makers, given limited resources?
2. To stimulate discussion on effective strategies to create *multi-disciplinary, multi-institutional, and scientist-stakeholder partnerships* to improve the use of climate predictions and the co-development of applied climate research.
3. To stimulate discussion and exchange of ideas about how *research, operations, and other entities can best combine efforts* in applied climate endeavors.
4. To stimulate discussion and exchange of ideas about *innovative use of technologies and processes* to effectively make climate science more useful and usable to decision-makers.
